EDUCATION

General Medicine

2021-2022

Kabul Medical University

PROFILE

Frontend Developer specializing in React, Next.js, JavaScript, and Tailwind CSS, with hands-on experience building responsive and interactive web applications. Skilled in developing reusable components, implementing modern UI/UX designs, and integrating frontend functionality with APIs. Experienced with Git/GitHub, Figma, and collaborative development, with a strong focus on clean code, usability, and problem-solving.

PROFESSIONAL EXPERIENCE

React Frontend Developer Jan 2025 - present

CTI(CodeTo Inspire) Academy

- Developed responsive web pages and interactive interfaces using React and JavaScript, applying modern frontend development practices.
- Built reusable frontend components for e-commerce pages, product listings, and landing pages, improving UI consistency and maintainability.
- Implemented responsive layouts and modern UI/UX principles to deliver consistent experiences across desktop, tablet, and mobile devices.
- Applied semantic HTML, SEO-friendly structures, and performance best practices to improve accessibility, search visibility, and frontend quality.
- Designed and maintained modern storefront layouts featuring product showcases, promotional sections, and user-focused interfaces.
- Collaborated on frontend projects, contributing to problem-solving, UI implementation, usability improvements, and clean, maintainable code.

Web Development Interenship

June 2025-prensent

FEFA- Academy

- Translated client requirements into clear web layout and UI requirements, supporting the development of user-focused interfaces.
- Structured website content and UI elements to create clear navigation, consistent layouts, and user-friendly design flows.
- Planned and tracked project tasks, monitored development progress, and supported project coordination.
- Tested web pages for usability, responsive layout consistency, and basic functionality, identifying issues and supporting improvements.
- Maintained project documentation and organized design assets to support efficient development and team collaboration.

WFE (Women Family Empowerment) Website — Team Project

Nov 2025 – Jan 2026

- Collaborated with a development team to build a modern, responsive website for Women Family Empowerment.
- Contributed to frontend structure, reusable UI components, content organization, and user-focused interface design.
- Tested web pages for responsive layout consistency, usability, and basic functionality, identifying issues and supporting improvements.
